- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1941 edition of the Wilson City Directory. A new feature, the designation of homes and places of business having telephones, marks this edition.

Confidence in the growth of Wilson's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilson to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilson Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 29 to 263, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Wilson, and the name, official personnel, nature and address of each firm and corporation in the city. A feature of this section is the designation of the number of children under Directory-listing age in each household.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 28, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Wilson. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilson, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 293 to 338, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 341 to 393. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes. A new feature is the designation of homes and places of business having telephones.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilson.

The Wilson Directory Library

Through the courtesy of the publishers of the Wilson City Directory, a Directory Library is maintained in the offices of the Wilson Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Trade Area—Retail area has radius of 40 miles, and population of 115,000 wholesale area, radius of 100 miles, and population of 170,000.

Newspapers—1 daily and 1 semi-weekly.

Hotels—2 principal, with total of 300 rooms.

Railroads—2: Atlantic Coast Line and Norfolk Southern.

Highways—U. S. 264 and 301; State 42 and 58.

Amusements—Largest auditorium in city (high school) seats 1,400 persons. 5 moving-picture theatres, with total seating capacity of 3,175 persons. 1 golf course (18 holes).

Hospitals—4, with total of 215 beds.

Education—Atlantic Christian College. 7 public schools, including 1 senior high. 1 parochial school. Number of pupils in public schools, 5,300; teachers, 145.

City Statistics—Total street mileage, 70.78, with 24.08 miles paved. Miles of gas mains, 25; sewers, 70. Number of water meters, 3,322; light meters, 4,073; gas meters, 1,228.

Capacity of water works (municipal), 3,000,000 gallons; daily average pumpage, 1,500,000 gallons; miles of mains, 47; value of electric, gas and water plant, \$2,290,452.62. Fire department has 40 men, with 1 station and 5 pieces of motor equipment. Value of fire department property, \$115,000. Police department has 25 men, with 1 station and 4 pieces of motor equipment.

General Summary

Wilson was incorporated Jan. 29, 1849, and is known as "The World's Largest Bright-Leaf Tobacco Market" and "The City of Beautiful Trees."

The first tobacco warehouse was constructed in Wilson in 1890. It proved very successful as a convenience to the farmers, as well as a profitable business enterprise for the

Wilson Municipal Building, Housing All Departments of Town Government

owners. From the beginning, Wilson proved popular as a tobacco market, and that this popularity has increased is evidenced by Wilson's phenomenal growth in this respect, having gained the distinction of being the world's largest bright-leaf market. Although a tobacco center, Wilson has other industries that contribute materially to its payroll and welfare.

Wilson is the county seat of Wilson County and is the largest township in the county, which has a total of ten townships. Wilson County was named for the Hon. Louis D. Wilson, long a member of the Senate from Edgecombe County and a volunteer in the Mexican War. By the U. S. Census of 1940, the county population was 50,219.

Industries

To trace the background of Wilson's industrial program, special reference should be made to its first industry, estab-

Scene in One of Wilson's Tobacco Warehouses

Wilson's Municipal Swimming Pool

lished in 1854 under the name of Hackney Bros., engaged in the manufacture of buggies. Later there came a rapid change in vehicles, automobiles replacing the use of buggies, and in keeping with this development, Hackney Bros., in 1919, discontinued the manufacture of buggies, reorganizing under the name of Hackney Bros. Body Co. Since that time this company has engaged in manufacturing the latest types of commercial bus bodies. Wilson's second oldest industry, the Hackney Wagon Co., was organized in 1903. This concern manufactures the most modern type of horse-drawn wagons and other articles. Other products manufactured in Wilson include cotton yarn, cotton lintors, cottonseed hulls, cottonseed oil, acid phosphate, various grades of fertilizer, ice, lumber, building materials, memorial monuments, mattresses, dairy products, candy, bottled drinks, bakery products and plush materials.

**A Representative Wilson Church. Ten Denominations
Are Represented in the City's 16 Churches.**

Although not actually engaged in manufacturing, the tobacco re-drying plants located in Wilson are an important factor in the industrial life of the community, particularly from the standpoint of employment and payroll. These re-drying plants prepare tobacco through a stemming, steaming and grading process that puts it in readiness for manufacturing, hence their operations would be closely aligned with manufacture.

Wilson, the World's Largest Tobacco Market

Tobacco more than anything else has given Wilson an international reputation, for it is "The World's Largest Bright-Leaf Tobacco Market." A summary of this huge tobacco industry is as follows:

There are eleven auction tobacco warehouses, with a combined floor space of 850,000 square feet, which, when

Corn Growing in Wilson County

Cotton Growing Near Wilson

filled to capacity, will hold approximately 5,500,000 pounds. There are ten tobacco re-drying plants, furnishing a re-drying capacity of approximately 2,000,000 pounds daily, with three eight-hour shifts as the regulation running time. There are five sets of buyers, all companies being represented, and at a selling rate of 360 piles of tobacco per hour, it is possible for these men to purchase on an average of approximately 1,350,000 pounds per day. With six hours as the regulation sales day, warehouse floors, when filled to capacity, can be cleared in three days. Wilson reached its selling peak in 1939, the total sales for that year being 91,007,768 pounds, and the receipts for this tobacco totaled \$15,039,003.40. In 1940 the Wilson markets sold 64,140,898 pounds for an average of \$18.45 per hundred, this tobacco bringing \$11,830,881.24. During the 1940 season Wilson paid the highest average price on any of the 76 bright-leaf mar-

Wilson County Court House, Wilson

kets in the entire flue-cured area covering six states. The market sold 24% of the entire 1940 crop sold in eastern North Carolina, paying its customers \$1.41 per hundred above the state average.

Agriculture

Wilson County is primarily an agricultural county, with practically 90% of its income derived directly or indirectly from agricultural products. The principal crops are tobacco, cotton and corn, although the following commodities are produced in reasonable proportions: Wheat, peanuts, rye, cowpeas, soy beans, cowpea hay, soy bean hay, mixed hay and clover. The soil is adapted for the growing of most all types of vegetables and fruits, although these crops are not grown and marketed on any large commercial scale, but mostly for home consumption. One of the most important developments in the agricultural picture of Wilson

Atlantic Christian College, Wilson

**Wilson's Municipal Stadium, Said to Be the Finest
Class D Baseball Stadium in the South**

County is the promotion of pure-bred live stock among the residents of the county. This is being promoted, not only by the agricultural department through the County Agent's office, but by the Wilson Chamber of Commerce, which has set up a loan fund of \$1,000 a year for the boys and girls of the county. This plan has already been put into force and is expected to result in many additional dollars for the people of both the County and the Town of Wilson.

Location

Wilson is located on the main line of the Atlantic Coast Line Railroad and the Norfolk Southern Railroad. It is also located on U. S. Highway 301, which is in a connecting link with the shortest North-South automobile route. This route, known as "The Tobacco Trail," now leads all North-South routes in the handling of tourist traffic north and south. Wilson is also served by excellent roads leading in all directions, thus giving the town and county excellent trans-

Nash Street, in the Principal Business Section of Wilson

portation facilities. Due to its geographic location and its accessibility to the large population represented by surrounding towns within a reasonable distance, the city is now recognized as the most popular distributing center for eastern North Carolina. Many traveling men make Wilson headquarters as a result of its location advantages.

Power, Light, Gas and Water

The electric, gas and water plant and distribution system in Wilson are municipally-owned. The Town of Wilson owns approximately 300 miles of distribution lines outside the corporate limits, and furnishes electricity wholesale to six towns within a radius of twenty miles, and power and light to approximately 1,900 rural customers. The utilities of the Town of Wilson, including land, buildings and dis-

Wilson County Public Library, at Wilson

**The World's Largest Smoking Pipe. Scene at the North
Carolina Tobacco Exposition and Festival, Held
Annually at Wilson**

tribution system, values at \$2,290,452.62. The electric plant has the latest improved equipment, with a generator capacity of 15,000 K.W. The rates, both domestic and industrial, are in line with other towns in eastern Carolina. Wilson's water supply is taken from a lake at the head of Contentnea Creek. The watershed and storage space are ample to meet every requirement. The filtering and pumping plant has a capacity of 3,000,000 gallons daily. The distribution system and fire hydrants service reach every part of the town. Sewer and water are also available in every section. The demand at present is 1,500,000 gallons every 24 hours.

Educational Facilities

Wilson and Wilson County have a very fine school system, with attractive school buildings and splendid equip-

Industrial Scene in Wilson. One of the Larger Truck and Bus Body Works of the Country

ment. There are 54 schools for white and colored pupils in the county, having a total valuation of \$1,536,853.

The Atlantic Christian College, located in Wilson, offers courses in higher education and is recognized as a standard Grade "A" college. Its enrollment for the 1938-39 term was approximately 360.

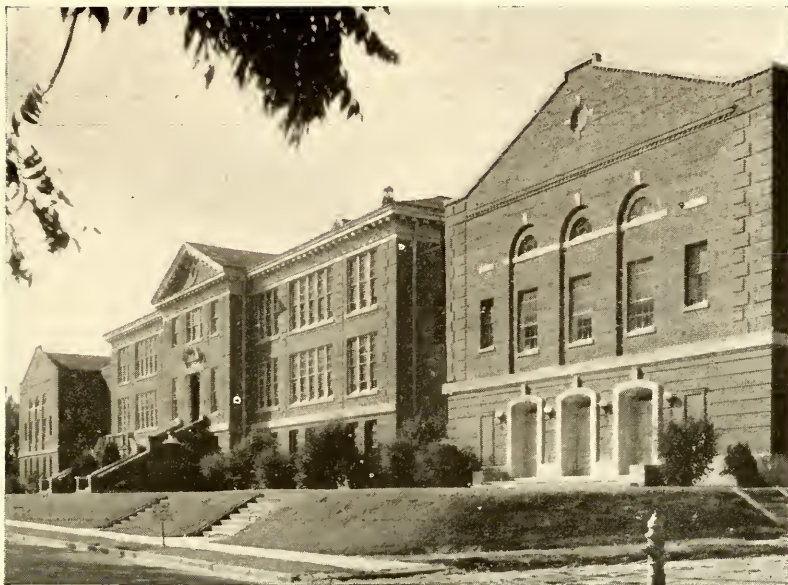

The City of Beautiful Trees

Wilson is known as "The City of Beautiful Trees," and though there are many residence streets in the city with a variety of lovely trees, Nash St. is considered the most beautiful, with Park Ave. deserving special recognition. Over a period of years, several geographic and pictorial magazines have written special articles and given particular reference to Nash St., and have designated it as one of the seven most beautiful residence streets in the world. To the students of nature, and especially to those who admire beautiful

trees, Nash St. is a real attraction. It offers an assortment of trees as follows: Pecan, birch, magnolia, walnut, umbrella, liveoak, cypress, hickory, pine, dogwood and willow oak. On spacious lawns in front of beautiful homes, these trees are found growing amid numerous kinds of shrubbery and many-colored flowers.

Churches

Wilson is a religious town, yet is not over-churched. There are sixteen churches, with the following denominations represented: Missionary Baptist, Freewill Baptist, Pentecost Holiness, Methodist, Presbyterian, Episcopal,

Charles L. Coon High School, Wilson

Lutheran, Christian, Catholic and Jewish, and the Salvation Army also conducts a mission.

Hotels

Wilson has two modern hotels, modern tourist homes, several boarding houses and numerous good apartment houses.

Theatres

Wilson has four theatres for white people and one for Negroes, each being well-equipped, and with a combined seating capacity of 3,175.

Radio Station

Wilson is the home of Radio Station WGTM (World's Greatest Tobacco Market"). The station operates on a frequency of 1,340 kilocycles. The studios, which are located on U. S. 301 about one mile north of Wilson, have the latest radio equipment. The station has proved an excellent factor in advertising the resources of the city and county.

Organizations and Clubs

Based on its population, Wilson is very well taken care of with respect to civic, fraternal and patriotic organizations and social clubs. The Rotary, Kiwanis and Lions clubs are rendering valuable civic and welfare work, and the same may be said of the Business and Professional Women's Club, the Woman's Club and the American Legion. These take an active part in all civic work. The leadership of civic work, however, is assumed by the Wilson Chamber of Commerce, which is now at its peak in membership and activity. Based on population, it is the largest Chamber of Commerce in eastern North Carolina. All other organizations in Wilson cooperate with the Chamber of Commerce when the occasion demands, and this has developed a very cooperative feeling in Wilson that is a great asset. Wilson also has a very active credit bureau to supply credit reports for the business interests. It operates under the name of the Wilson Credit Bureau.

Hospitals

Although Wilson and Wilson County are considered exceptionally favorable from a health standpoint, Wilson has four hospitals, each of brick construction, equipped with the most modern facilities. By reason of their equipment, efficiency and service, these hospitals have gained a splendid reputation and are serving a large area in and around Wilson.

Aside from these hospitals, Wilson has a private clinic and a number of skilled physicians who are contributing factors to the hospitals and medical field of the city.

The Eastern State Tubercular Hospital, for many years a dream, has just been started, and when completed, will mean facilities for the care of 500 patients. This new hospital is located on the northern outskirts of Wilson and is modern in every design.

Recreation

Wilson is well-supplied with recreation facilities. These include a new \$76,000 stadium, with a seating capacity of 3,000, in which both baseball and football can be played. Recreation Park, covering several acres, consists of a baseball diamond, swimming pool, two tennis courts, and playground equipment for children. The city also has two other parks. There is a beautiful country club located three miles from the city limits. In addition to an attractive clubhouse, which is used for banquets and dances, the country club has a splendid eighteen-hole golf course, two tennis courts and a swimming pool.

Camp Charles, a Boy Scout camp which serves eastern North Carolina, is located fourteen miles east of Wilson. The Wilson Boy Scout Council was responsible for the building of this fine camp. It covers about 73 acres, with lake, large mess hall, craft shop and cabins. Under-privileged girls also make use of the camp each summer.

Library

In 1921 the department of literature of the Woman's Club established a free public library in Wilson. Since 1935 the library has been sponsored by the Town and County and

is free to all the people in same. The Town and County have recently constructed one of the most complete library buildings in the state, at a cost of approximately \$75,000. It is a most up-to-date building in every respect.

Municipal Building

The Town of Wilson has recently completed and moved into a fine modern municipal building, which cost \$127,000. All branches of the City government are housed in this building.

Government

Wilson is governed by a mayor, a city-manager and board of aldermen of six men, one from each ward, who hold their office for two years and are elected by the people.

Wilson Cotton Market

Wilson is one of the leading cotton markets of eastern North Carolina, with sales aggregating between ten and twelve thousand bales per year. The county is served by 24 cotton gins. The largest domestic and foreign importers and exporters of cotton are represented on the Wilson market. There are two modern storage warehouses, both of which are bonded under the Federal and State warehouse system and are checked periodically by Federal inspectors to see that all cotton is accounted for, properly tagged, protected from the weather and insured for the full market value.

Wilson's Future

It is pointed out by many that Wilson has a bright future, due to its ideal location, transportation facilities, and agricultural and natural resources, all of which are important factors in attracting new industries. It would appear that Wilson is in position for industrial development, and many manufacturers are considering Wilson as a distributing center for their products, as eastern North Carolina can be so well served from this point. Many traveling men make Wilson headquarters on account of the convenience of working in and out of the city in serving eastern North Carolina. The North-South tourist traffic via Wilson has more than doubled within the past two years, and this type of business has proved a help to many lines of business that cater to tourists. As the "King of Tobacco," Wilson may some day be engaged in the manufacture of many tobacco products. The people of Wilson are thinking in terms of expansion and commercial development and are most optimistic as to their city's future.

Wilson Chamber of Commerce

The Wilson Chamber of Commerce is recognized as the outstanding trade association in Eastern North Carolina. During the past six years it has been a contributing factor to the progress of Wilson and Wilson County. In addition to promoting such activities as trade events, industry, agriculture, conventions, tourists and advertising, it has for the past five years promoted the North Carolina Tobacco Exposition and Festival, which is one of the largest celebrations of its kind in the South. This festival has received

nation-wide publicity in the leading newspaper and magazine publications, as well as the newsreels, and this year attracted 75,000 people.

The Wilson Chamber of Commerce also serves as a clearing-house and general bureau of information. Headquarters for the Chamber are located in the lobby of the Cherry Hotel.

TRADE! You like to patronize those concerns who are in business to stay.

It is natural to expect that such business establishments always stand back of what they sell.

The advertising in this Directory is suggestive of the stability and permanence of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted—"User Circulation."

To be exact by actual survey in twenty-four average American cities by actual count each city Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact advertising known

105 EAST BARNES STREET

HILL'S WILSON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1941

Copyright, 1941, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

*** between two intersecting streets designate there are no houses between them.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding names denotes householders and places of business having telephones.

(c) denotes colored.
